- ▶ CRM Inventory Excel Upload

SCM & Inventory

- 1 Purchase Requisition**
↓
Generation of requisition / indent based on the project plan defined.
- 2 MRN and GRN**
↓
Material sent by vendor will be received by the Store, where subsequent processes, MRN and GRN, will follow. Post GRN quality check, accepted quantity will be updated in the stock.
- 3 Material Indent**
↓
Materials acquisition based on requisition request from the site or the availability versus demand of the material in the stock. Request to the purchase department by the store is done through the Indent Process.
- 4 Issue of the Material**
↓
Material is issued against requisition.
- 5 Stock reconciliation**
↓
Stock reconciliation is done through tracking all GRN's & issues.

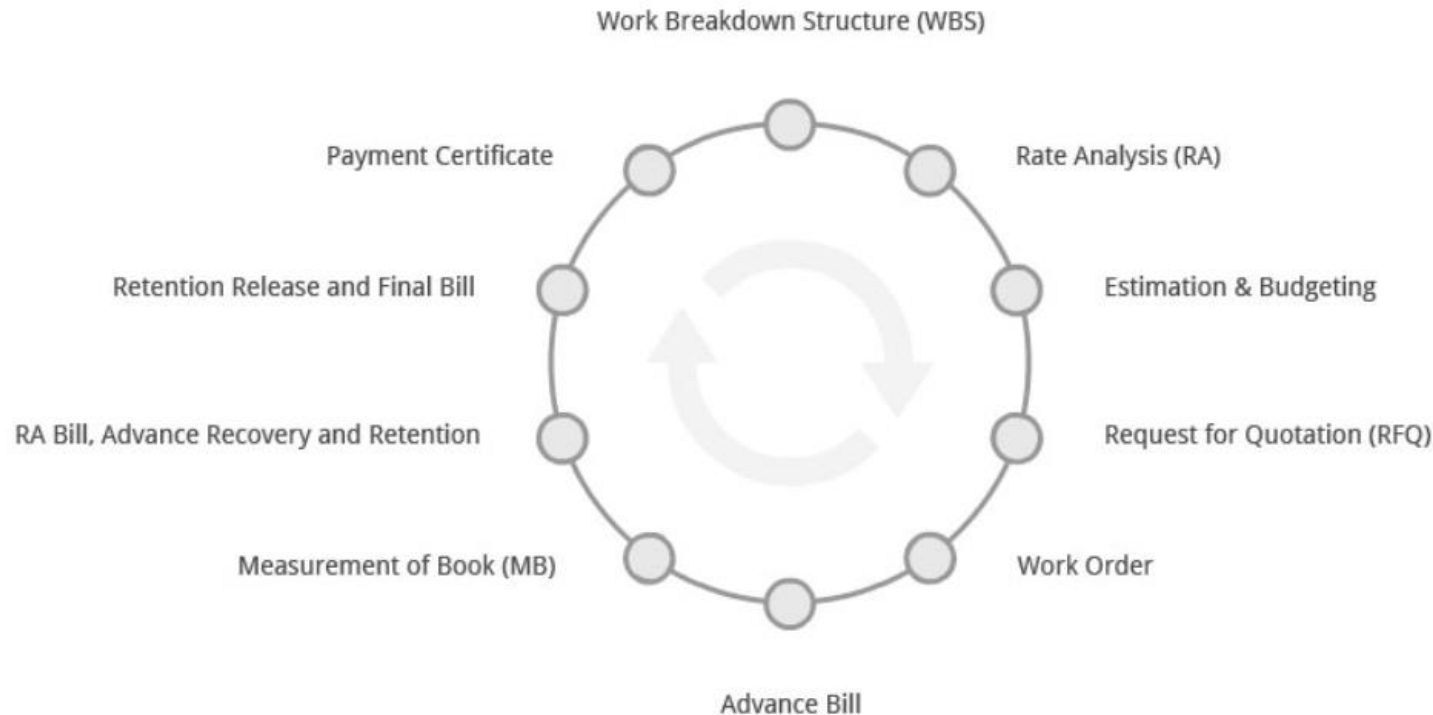

Sub-Contracting
